Duration : March 2025 – May 2025

Mentors: Industry Supervisors

Symbiosis Institute of Technology, Nagpur Campus (SIT-N)

Presentation Outline:

- Introduction of Company (Structure/Information)
- Objectives of the
- Work Assigned/ Technologies Working
- Project Description
- Hardware/Software Specification
- Methodology
- Implementation Results
- Internship Completion Certificate
- Internship Experience & Learnings

Introduction of Company (Structure/Information)

- **ServiceNow** is a leading cloud-based SaaS platform specializing in digital workflows and IT Service Management (ITSM).
- Founded in **2004**, headquartered in **Santa Clara, California**, with a global customer base.
- Provides enterprise solutions for **ITSM, ITOM, ITBM, HR, and Customer Service** management.
- Recognized as a top platform for **workflow automation and enterprise digital transformation**.

Objectives of the Internship

- To gain **hands-on exposure** to the ServiceNow platform and its applications.
- To understand **ITSM processes** in real-world industry scenarios.
- To complete the **ServiceNow Micro-Certification** and **Administration Fundamentals** training.
- To develop skills in **workflow automation, platform navigation, and analytics tools**.

Work Assigned/ Technologies Working on

- Successfully completed **ServiceNow Micro-Certification: Welcome to ServiceNow**.
- Worked on **ServiceNow Administration Fundamentals On-Demand** course.
- Explored modules like **Platform Analytics, Service Catalog, and Workflow Studio**.
- Impersonating [**Platform_User**] in a simulated environment to perform and validate tasks
- Learn about the interface of the environment, learning dashboards, ordering products, placing complaints etc.

Project Description

PROJECT: simulated micro-certification project, involving real-time tasks within a ServiceNow instance.

- Covered key areas: **Navigation, Lists & Filters, Forms, Dashboards, Reports, Knowledge, and Virtual Agent.**
- Tasks involved creating and managing **reports, dashboards, and service catalog requests.**
- Designed and executed **Visual Task Boards** to demonstrate workflow understanding.
- Delivered a **structured internship log and presentation**, documenting tasks and outcomes.
- The project centered on **hands-on simulator tasks** within a ServiceNow learning environment.
- Focus was on **practical application of ServiceNow features** rather than just theoretical learning.

Hardware/Software Specification

- Hardware:** Laptop with at least **Intel i5 Processor, 8GB RAM, and 256GB SSD**.
- Operating System:** Windows 10/11 for smooth compatibility with ServiceNow portals.
- Software:** Google Chrome / Microsoft Edge browsers for accessing learning modules.
- Online Platforms:** ServiceNow **MyNow Learning Portal** and certification environment.
- Additional Tools:** Stable internet connection and cloud-hosted ServiceNow simulator for practice.

SERVICENOW™**

Internship Experience and Learnings

- Gained **hands-on experience** with the ServiceNow platform, strengthening technical skills.
- Built a clear understanding of **ITSM processes**, including incident and request handling.
- Learned to **personalize dashboards, create reports, and manage workflows** in ServiceNow.
- Improved **analytical and problem-solving skills** by completing simulator tasks.
- Understood the importance of **workflow automation, CMDB accuracy, and digital transformation**.
- Developed **professional discipline** through structured e-learning, task logging, and reporting.

Thank You.....
